

2022 BONE STOCK 80s.

General Rules.

No hears or limos, mini vans are fine

1. Official's decision is final.

2. No profanity allowed on the cars. No one under the influence of drugs or alcohol will be allowed to participate.

Classless behavior will not be tolerated.

3. Driving. You must make aggressive contact with another live car in less than one minute. If you do not make aggressive enough hits, we will let you know. No intentional driver door hits. Depending on the severity of the hit, we may simply warn you, or we may break your stick. If you use your driver's door to block another car, do not expect that car to be disqualified for the driver's door hit. Official's decision final.

4. During competition stay in the car. Keep your helmet on. Keep your hands and arms inside the car.

5. During competition, no driver, pitmen, or spectators shall approach the officials. Classless behavior will not be tolerated. Official's decision is final.

6. If you are black flagged (for example a door hit), you finish in that spot, not last, and receive that place trophy and winnings, if any.

7. Cars may be disqualified at any time. We will re-inspect the Top five after the derby is over. IF a car is found to be illegal, it will be disqualified and finish last.

8. NO BITCH RULE!

9. Anything can be done to drivers door for safety, a bar behind the seat from door to door allowed. Dash may be replaced with a 4" diameter MAX pipe/tubing (this must be a minimum distance away from the firewall of 6" measured at the furthest point back of firewall) Dash bar and seat bar may be connected inside the car on passengers side door. A simple halo/rollover loop off of the seat bar to roof allowed. Please put a minimum 6x6 plate on ends of pipe/tubing so it doesn't act as a "spear" through the sheet metal. fuel cell protector recommended, fuel cell protector must be off back seat bar and has to be 4" away from all sheet metal

CAR PREP & BUILD

1. Overall condition must be safe. This applies to used cars as well as some fresh cars. IF the officials deem the car unsafe to run, it will not run.

2. Fire jacket highly recommended. Long pants are required. Eye protection and gloves highly recommended. Shoes are required.

3. Minimum of D.O.T. rated helmet required. Full-face helmets recommended.

4. Seat belts are required, must be functional, and fastened to the floor or seat bracket. Official's decision is final.

5. Car must be fully stripped of all flammable material. Factory seats and factory dash are allowed. All, chrome, door handles, and any unsafe items must be removed from the inside and outside of the cars. All plastic, stainless and pot metal trim, fiberglass, and rubber must be removed from the outside of the car.
